

1 Bitcoin Prize Game Rules

- 1 Student or General Pass holder will win 0.2 Bitcoin
- 2 All-Access or Cyberpunk Pass holders will win 0.4 Bitcoin each
- The winners are determined by comparing:
 - the last 4 characters of the SHA256 of "Ticket_ID+ticket_type"* with
 - the last 4 characters of the hashes of the Bitcoin blocks mined from conference opening, 9:30 CET, Oct. 28th 2022**
- The game will continue until 1 Student/General and 2 All-Access/Cyberpunk ticket holders are found
- In order to be eligible for the game, the attendee needs to have their conference badge scanned before Oct. 29th at 12:00 noon
- The winners will be announced on Oct. 29th at 18:30 CET. If there are still winners outstanding, the comparison will continue until all matches are found. Winners will be contacted per email to collect the prize.
- The winners will also receive a BitBox 02 Bitcoin Only Edition and if desired a crash course in Bitcoin and Bitcoin Self-Custody

* The hash is calculated for **lower-cased ticket type directly appended to ticket ID**. For example: Ticket ID is *AUx82* and Ticket type is *General*: the hash is calculated for *AUx82general*.

You can calculate the SHA256 of your ticket on the following website:

<https://emn178.github.io/online-tools/sha256.html>

** Block data and timestamps taken from Blockstream block explorer: <https://blockstream.info/>
